DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Applicant's Amendment After Final dated October 2, 2006, in response to USPTO Final Action dated July 11, 2006.

The cancellation of claims 1-10, 12-47, 49 and 52-62 is sufficient to place the application in a condition for allowance as set forth hereinbelow.

Allowable Subject Matter

2. Claims 11, 48 and 50-51 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Relative to claims 121, 48 and 50-51, the major difference between the teachings of the prior art of record (USP 6,037,917, Kawakami and USP 6,130,420, Tanaka et al.) and that of the instant invention is that said prior art of record **does not teach** a driving method for a plasma display apparatus having a display panel, wherein a peak noise output of the display panel is reduced by sequentially switching a clock signal, used to drive the display panel, between at least two frequencies, said two frequencies lying within plus or minus 1 percent of a reference frequency being set for said clock signal used to drive said display panel.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
